## LEAN, FAST, PRECISION SHAPES & COMPONENTS FOR MEDICAL & LIFE SCIENCES

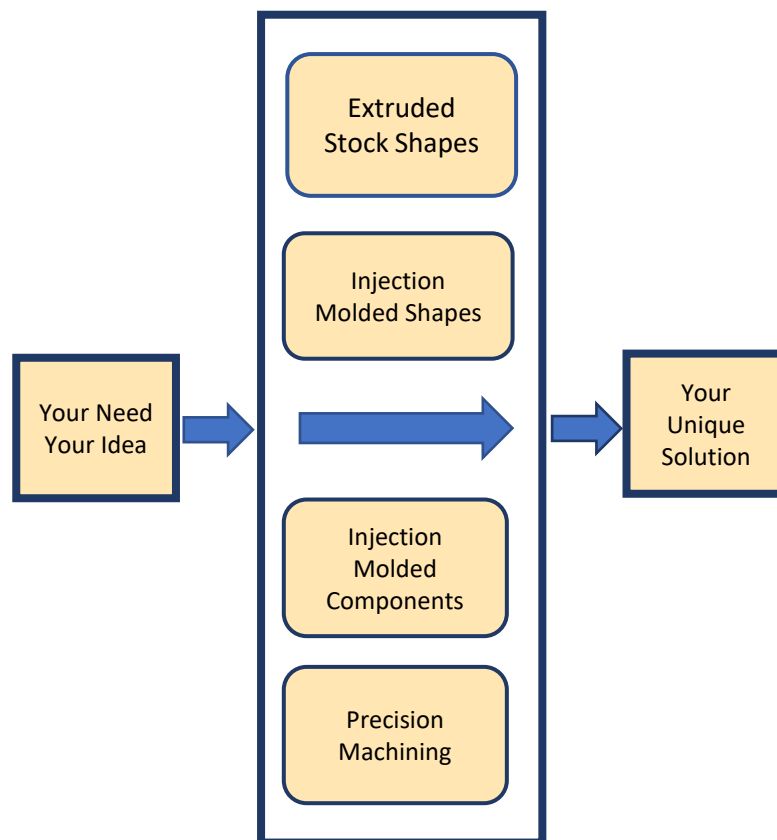

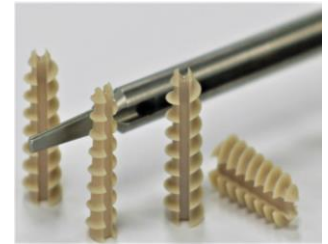

### Markets & Applications

- Spinal Implants
- Trauma
- Cardiovascular
- Dental
- Arthroscopy
- Orthopedic
- Analytical Equipment
- Surgical Instruments
- Prosthesis
- Veterinary

*Drake Medical Plastics' mission is to provide resin-to-shape or resin-to-component medical polymer solutions.*

*From prototype to production, Drake Medical is your one stop provider.*

### Capabilities

- Custom Extrusion
- Stock Shapes
- Precision Fabrication
- Injection Molding Shapes & Components
- Film Calendering

*Our material science expertise, broad capability, processing innovation and lean techniques gives us a unique edge in delivering complex solutions quickly and efficiently.*

*We tailor our deliverables to optimize your results via single or twin-screw extrusion, injection molding, precision fabrication and other processes.*
